

Our **HOME** employs two classifications of Care Staff.
We are always accepting applications for casual opportunities.

TITLE: Care Partner
FUNCTION: Primary function - directly serving residents
REPORTS TO: LPN

ROLE SUMMARY

The Care Partner provides each resident with daily care in accordance with the residents' assessment, choices and care plan. Each Care Partner is assigned to a primary residence of 12-14 residents, working within a multidisciplinary team where the resident directs the daily schedule.

The Care Partner provides physical care to the residents to meet their daily needs and enable them to function at the highest possible level. While this care is provided under the leadership of a professional nurse, the Care Partner is the residents' closest advocate in the household. The Care Partner promotes the residents' psychosocial well-being through meaningful relationship building, and works with the household team to meet other social service needs of the resident and of the household, always providing support, friendship and kindness for each of the household members

All Household Staff are members of a self-directed, cross-trained work team assigned to a household. Their purpose is to plan and coordinate resident care creating a home and strengthening community to establish a sense of belonging, usefulness and purpose in daily life.

All direct care staff are trained in housekeeping, laundry, social and activities services that directly affect the resident's environment.

ROLE REQUIREMENTS

- Continuing Care Aide Certificate (or equivalent course from a recognized educational institute)
- Valid TLR certification
- Gentle Persuasive Approach training
- Clear criminal record/vulnerable sector search
- English language proficiency-ability to understand and be understood by residents
- Demonstrated adherence to the mission/vision/values of Samaritan Place
