

### Designated Family Member or Support Person Pre-Screening Questionnaire: General

Each patient/client is able to designate two family members/support people to come into the facility, which are to be documented by the care team. When arriving at a facility, the first 3 questions are asked daily as part of entryway screening. An answer of YES to any, will result in you not being allowed to enter that day.

The 4th question is for times where you are pre-planning a visit to a facility – if you answer YES to any of question 4, you would still be allowed to enter but present a higher than normal risk. We'd ask you to consider alternate ways of supporting the patient/client, either through rescheduling or asking for the other designated family member/support person to take your place.

We are not screening for seasonal or environmental allergies; the following questions are meant to capture new symptoms, or a worsening of long-standing symptoms. **Thank you for helping us keep everyone safe!**

<b>1. Do you have any of the following symptoms:</b>  Fever (temperature $\geq 38.0$ Celsius)  New or worsening respiratory symptoms <b>NOT RELATED</b> to seasonal or environmental allergies i.e. cough, shortness of breath or difficulty breathing, sore throat, runny nose?  <b>New onset atypical</b> symptoms including: chills, aches and pains, headache, loss of sense of smell or taste, diarrhea, nausea/vomiting, loss of appetite, fatigue or weakness?	YES	NO
	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>
<b>2. Have you tested positive for COVID-19?*</b>		<input type="checkbox"/>
 <b>YES to ANY part of Section 1 or 2</b> You will NOT be permitted to visit at this time <b>Contact HealthLine 811 and self-isolate</b> until you receive further direction		
<b>3. In the last 14 days, have you:</b>  Been outside of Canada, including to the United States?†  Been identified by Public Health as a close-contact? OR Had close (within 2 metres) or prolonged contact with a confirmed or probable case of COVID-19?‡	YES	NO
	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>
 <b>YES to ANY part of Section 3</b> You will NOT be permitted to visit <u>until 14 days after</u> : your return to Canada or your last contact with confirmed or probable case. <b>You must also self-monitor</b> and, if you develop symptoms, isolate and call HealthLine 811 immediately		
<b>4. In the last 14 days, have you:</b>  Lived in, worked in, or visited a location or event on the current outbreak list?‡  Had NON-close contact with a confirmed or probable case of COVID-19?	YES	NO
	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>
 <b>YES to ANY of Section 4</b> <b>You may still visit as long as long as you don't have symptoms</b> - consider alternate ways of supporting the patient/client (rescheduling or asking for the other designated family member/support person to take your place) <b>On arrival, do hand hygiene, put on a mask, and proceed to temperature check</b> <b>You must also self-monitor</b> and, if you develop symptoms, isolate and call HealthLine 811 immediately		
 <b>NO to ALL questions:</b> On arrival, do hand hygiene, put on a mask, and proceed to temperature check		

**Consult the Term Definitions Handout for definitions of: close contact, non-close contact, confirmed case, probable case**

*The clinical characteristics of COVID-19 are still being understood and these screening questions may change as new evidence emerges*

\* if you have a federally approved travel exemption, you may enter —be prepared to provide proof.

† If you have received clearance by public health as no longer a risk following a positive test or an exposure, you can answer no
